

CAREER OBJECTIVE

Seeking an internship opportunity to leverage my programming proficiency in Python, Java, and SQL, along with strong analytical and interpersonal skills, to assist in the development of robust web applications and gain valuable insights into professional software engineering practices.

EDUCATION

B.Tech, 2023 - 2027
Presidency University, Bangalore

Senior Secondary (XII), Karantaka State Board 2023
Science
R.T Nagar Pre University College
Percentage: 81.00%

PROJECTS

Software for dubbing awareness videos into Multilingual languages

Aug 2024 - Jan 2025

The proposed system emphasizes the precision of translations, synchronization between audio, video and seamless integration for end - users. Additionally its offline capability ensures inclusivity by supporting areas with limited internet connectivity.
